- Full Implementation and development of skills proficiency
- Person Centered Ethics
- Manager and supervisor guidance for complex settings and populations &

The conversation is the medicine
—Annie Fahy

Developing proficiency in MI is like learning to play a musical instrument. Some initial instruction is helpful, but real skill develops over time with practice, ideally with feedback and consultation from knowledgeable others. As with other complex skills, gaining proficiency in MI is a lifelong process.

- William Miller, 2008
