

Online Interactive Learning

Motivational Interviewing: The Basics

About this Training:

- This will be a small group (10-12) highly engaging and interactive experience. Motivational Interviewing is a client-centered, evidence-based directive method for enhancing intrinsic motivation to change by exploring and resolving ambivalence. This training will discuss this effective approach provide participants with an opportunity to explore creative ways of integrating these approaches into an effective therapeutic intervention. This online facilitated training will be an interactive experience for a multi-disciplinary audience. Participants will engage in experiential methods such as information exchange, listening to recordings, group discussions, paired skills practice, and self-reflective exercises.

Audience:

- Social workers, healthcare professionals, recovery coaches, counselors, and workers who have direct interactions with the people we serve.

Objectives:

- Learn the fundamentals of Motivational Interviewing (MI) spirit, structure & skills
- Explore ambivalence as a barrier to change
- Learn and practice MI on “challenging” people through role playing and discussion
